

● **Seamless Splicing** : LER series panel creates seamless and continuous visuals, ensuring a smooth viewing experience without visible gaps.

● **Quick Assembly and Disassembly:**
Modular construction allows for rapid assembly and disassembly, saving time during event setup and breakdown.

● **Flip Guard Protection** : The cabinets are equipped with corner protection features designed to ensure the safety of module corners during transportation, minimizing the risk of damage during handling.

● **Portability:** LER panels are designed to be lightweight and portable, facilitating easy transport and quick setup for events in different locations.

● **Flexible Mixed Installation**
LER panels Seamlessly combine 500×500 mm and 500×1000 mm panels in the same display. No extra tools. No complex reconfiguration.

● **Curved LED Display:** The curved display creates an immersive visual experience, capturing the attention of viewers with dynamic and multidimensional content

● **90 degree & Cube Led Display:** A compelling choice for various applications, offering a blend of creativity, versatility, and immersive visual experiences, particularly well-suited for environments where a unique and dynamic display is desired.

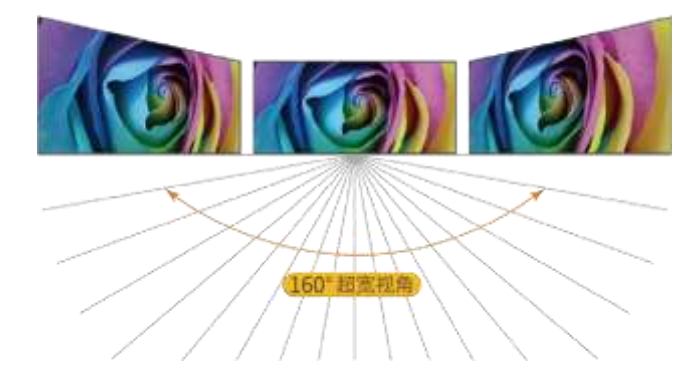

● **Various Applications:** From intimate boardrooms to massive festival main stages, this LED panel series is engineered to perform across the full spectrum of live events.

● **IP65 Protection:** The outdoor model boast IP65 high protection, ensuring long-term stable operation even in harsh weather conditions. This robust protection enhances the durability and reliability of the display.

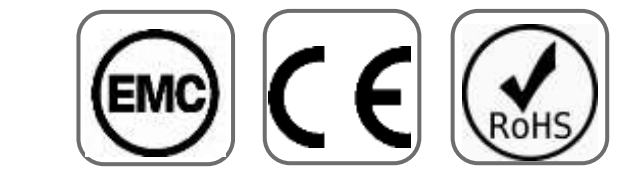

● **A wider viewing angle** in LED displays significantly enhances visibility, ensures consistent image quality, and improves audience engagement. A wider viewing angle ensures that more people can fully engage with the content, leading to better overall audience interaction and satisfaction.

● **High-Resolution Visuals:** This displays offer sharp and clear images with high brightness levels, ensuring visibility even in well-lit environments. This makes them perfect for both indoor and outdoor use.

● **Certifications**
